

Uri Kogan

Personal Information

- Date of birth: 17.09.1977
- Martial status: married
- Languages: Hebrew, English, Russian

Education

2008-2009

- MBA from University of Haifa

1998-2004

B.Sc. From Electronics Engineering faculty, Technion.

Specialization in software and computer networks.

Experience

2011- until now **Web Entrepreneur**

- Development of internet applications using various platforms and languages.
 - PHP, Python, C#
 - LAMP stack, IIS7, Google AppEngine

2006-2011 **Given Imaging Ltd.- Software Engineer**

- Development on embedded platform: TI's dual core (ARM9, C6400+) Da'Vinci processor: embedded Linux and DSP code.
- .NET windows applications development.
- Development support system: Linux, scripting using various languages.

2007 **Financee- Software engineer**

- Tomcat-Java: web application development using JSF framework
- Google App Engine applications

2005-2006 **Motorola Israel- Software Engineer**

- Development of networking equipment
- Linux device drivers/Linux kernel hacking
- Deep understanding of Internet protocols

1999- 2005 **Spetrotec Vehicle Security- Software Engineer**

- Developing application for GSM based cellular networks using various protocols and their levels (GPRS, TCP/IP...).
- Developing R/T operating systems and embedded systems
- Web applications development on Java/.NET for database applications servers and clients.
- Working on the following platforms and languages: Java for Windows and Linux OS, Embedded C on various MCU's, Visual C++, Visual Basic.

2002- 2004 **Technion, Control and Robotics Lab**

Projects supervisor: embedded software development and mentoring

1995-1999 **Eldar- Shany Technologies**

Embedded Software Developer and Network Administrator

Additional Projects

- Web applications development: Java, PHP, Perl
- High reliability systems in Java
- Open source projects participation: Java, .NET
